Onondaga Community College, A.A.S.

SYRACUSE EDUCATIONAL OPPORTUNITY CENTER

The Syracuse Educational Opportunity Center was established in February 1969 by the State University of New York. The program was then known as SEEK (Search for Education, Elevation, and Knowledge) and was operated through a network of Cooperative College Centers. In 1973 the name was changed to Educational Opportunity center and administration was assumed by Morrisville State College. During its history the EOC has grown in the number of students served and in the variety of programs offered. Today they offer nine major programs as well as employment services and computer access. Their mission remains the same: to provide qualified and motivated individuals with valuable education and career resources.

Syracuse Educational Opportunity Center Staff

Elizabeth A. Allen, 2001
Director, Academic Affairs
SUNY at Oswego, B.A.
Central City Business Institute, A.O.S.

Dennis W. Ashby, 1981
Counselor
Syracuse University, B.A.

MORRISVILLE COLLEGE FOUNDATION, INC.

The functions, powers and purposes of the Morrisville College Foundation, Inc. are:

• To help organize a structure that will involve alumni, friends and students to maintain their interest in the objectives of the development program - namely, meeting the educational goals of Morrisville State College by assisting the institution in its endeavors to provide educational opportunities to all qualified individuals;

• To provide financial assistance to the students, faculty and staff of the college to the extent that it is consistent with the educational activities and goals of the college;

• To make gifts, grants, or loans, for educational purposes to the college or to organizations associated with, and authorized by, the college, provided that such organizations have been recognized as exempt organizations under section 501 (c) (3) of the United States Internal Revenue Code (or the corresponding provision of any future United States Internal Revenue Code.);

• To encourage voluntary contributions to Morrisville State College and to advise on and recommend methods of fund promotion and solicitation that will raise the greatest potential results;

• To receive and hold gifts of money and personal and real property, and to invest, manage and collect income from such gifts;

• To disburse funds, property and income for the purpose of advancing the educational and cultural activities of Morrisville State College;

• To appoint and appoint officials and committees for the proper accomplishment of the development programs;

• To react and respond when requested with recommendations to the college on the various aspects of proposed fund raising programs;

• To recommend short- and long-term goals for the development program to the college president or his designated representative.

STATEMENT OF STUDENT, FACULTY, STAFF RESPONSIBILITY

The opportunity to gain a college education and a skill for lifelong advancement is a significant junction in one’s life. Approximately 30 percent of the adult population of this nation has taken and capitalized on this opportunity. Your college experience offers you a chance to succeed. Yet, with this opportunity comes responsibility.

Responsibility is a common thread that crosses all groups on the Morrisville campus. Each individual is responsible for his or her actions as they relate to every other person and to the campus community. In this regard, Morrisville State College has created a Statement of Responsibility for students, faculty, and staff of the campus. Each person must take responsibility for his or her actions as they contribute to or hinder the success of the overall campus community.

It is anticipated that in placing these responsibilities in writing and sharing them widely, each person on the Morrisville campus will have a fuller understanding of their meaning. Students should expect their campus to be a “home away from home,” whether in the classroom or in the residence halls.

The following are general statements of responsibility:

Faculty members are responsible to the college community, central administration and the citizens of the State of New York in their roles as teachers. In this light, they will provide a classroom demeanor that encourages students to learn and personally set an example of how to conduct oneself on the job.

Characteristics such as the following are important aspects of this demeanor:

- Prompt attendance at stated times/holding classes for their stated lengths
- Preparation for the day’s activities
- Motivating students to reach their full potentials
- Maintaining a positive classroom decorum where non-topic related discussions are held to a minimum, student attendance is required, class preparation and evaluation are required, and where on-topic dialogue is expected
- Office hours are held when stated
- Willingness to assist students when/where they need help
- Acting as mentors as well as teachers, recognizing that faculty members are a major reason students remain in college
- Promoting out-of-class study
- Maintaining civility in the classroom
- Being professionally objective in the conduct of their classes

Morrisville State College students are expected to be responsible for their actions as they relate to in-class and out-of-class activities.

It is expected and it is the student responsibility in classes to adhere to the following:

- Arrive to the class/laboratory on time and enter with respect for others
- Remain attentive in class
- Prepare for each class. This means preparation of assignments as well as preparation for participation
- Attend all classes (legitimate excuses are understood). Letting the faculty member know of the absence prior to class is good business on the part of the student
- Refrain from non-topic, side conversation
- Be prompt in meeting scheduled times (class time, due dates, etc.)
- Work with others as assigned to complete an assignment carrying out his or her portion of the assignment to its fullest
- Be respectful of the faculty member(s) and the other students in one’s acts and deeds
- Assist faculty by indicating to them understanding or lack of understanding of a concept, assignment, etc.

It is expected and it is the responsibility of students outside classes to be:

- Respectful of others
- Maintain the procedures and policies as expressed in the Rules, Regulations, and Expectations document
- Maintain academic honesty (i.e.: citing work of others when it is used, use computers as academic tools, not as entitlements, etc.)
- Observe the code of conduct as expressed in the Rules, Regulations, and Expectations document

Morrisville State College administrators are responsible for their actions as they relate to supporting the learning process, maintaining facilities and administering the college.

It is expected and it is the responsibility of administrators to:

- Create a class schedule that meets student needs
- Support faculty in their role as educators—maintain a “home” atmosphere for students in the residence halls
- Provide quiet, appropriate study space
- Beautify the campus
- Be prompt in addressing issues
- Be creative in setting plans and goals
- Share important information as it becomes available
- Work cooperatively to build a strong, positive campus community
